FOR IMMEDIATE RELEASE

Clarion Partners Europe Extends Dutch Footprint with Two Warehouse Acquisitions Totalling €50 Million

-Extends footprint in two of the Netherlands' most critically undersupplied distribution regions-

August 3, 2026 – Clarion Partners Europe, the real estate investment manager specialising in logistics and industrial assets across Europe, has maintained its deployment momentum in the Netherlands with two warehouse acquisitions, on behalf of one of its co-mingled funds, for a total consideration of €50 million. Both properties are located in prime distribution hubs in North Brabant, one of the Netherlands' top industrial and logistics regions.

In Eindhoven, Clarion Partners Europe has acquired a warehouse on the Business Park Nieuw Acht / GDC Eindhoven Acht business park. Completed in 2020, the BREEAM In-Use Very Good certified property totals c. 17,000 sqm of warehouse and office accommodation and is fully let to a leading Dutch fresh-produce wholesaler.

The asset benefits from excellent transport connectivity, with direct access to the A2, A50 and N2 ring roads and proximity to Eindhoven Airport.

In Tilburg, the Company has acquired a Grade A warehouse constructed in 2019. Totalling 16,226 sqm, the fully institutional, BREEAM Very Good certified warehouse features LED lighting and rooftop photovoltaic panels, and is fully leased.

Tilburg, where Clarion Partners Europe already owns several properties, is a well-established logistics hub in the southern Netherlands, forming part of the core Brabant logistics corridor, with immediate access to the A58, A65, A67 and A2 motorways.

The Netherlands remains a core market for Clarion Partners Europe. It currently manages a portfolio of mission critical, ESG-compliant assets, leased to a mix of national and international occupiers.

Neli Mihova, Vice President, Clarion Partners Europe, commented: "These transactions strongly align with our strategy of acquiring generic assets in core logistics markets with strong ESG specifications, which generate robust day-one income whilst offering reversionary downside protection."

Rory Buck, Managing Director, Clarion Partners Europe, added: "The Netherlands remains one of our high conviction markets. With higher financing and construction costs weighing on new development, vacancy rates for prime assets in many of Europe's leading distribution hubs are at or close to historic lows. With market dislocation, we see a compelling window to deploy capital in a disciplined manner."

For Eindhoven, Clarion Partners Europe was advised by LOYENS & LOEFF N.V., Grant Thornton and Arcadis. NL Real Estate | Knight Frank advised the Seller.

For Tilburg, Clarion Partners Europe was advised Houthoff, Arcadis and Cushman and Wakefield.

###

Investment Risks

Past performance is no guarantee of future results. All investments involve risk, including loss of principal.

Diversification does not ensure against loss. An investment should be considered long-term within a multi-asset portfolio and should not be viewed individually as a complete investment program. **The Fund is subject to a high degree of risk;** additional risk considerations are listed below:

Liquidity Risks:

The Fund should be viewed as a long-term investment, as it is inherently illiquid and suitable only for investors who can bear the risks associated with the limited liquidity of the Fund. Limited liquidity is provided to shareholders only through the Fund's quarterly repurchase offers for no more than 5% of the Fund's shares outstanding at net asset value. There is no guarantee these repurchases will occur as scheduled, or at all.

Shareholders may not be able to sell their shares in the Fund at all or at a favorable price.

Real Estate Investment Risks:

The Fund's investments are highly concentrated in real estate investments and therefore will be subject to the risks typically associated with real estate, including but not limited to fluctuations in lease occupancy rates and operating expenses, variations in rental schedules, which in turn may be adversely affected by local, state, national or international economic conditions. Such conditions may be impacted by the supply and demand for real estate properties, zoning laws, rent control laws, real property taxes, the availability and costs of financing, and environmental laws.

Furthermore, investments in real estate are also impacted by market disruptions caused by regional concerns, political upheaval, sovereign debt crises, and uninsured losses (generally from catastrophic events such as earthquakes, floods and wars). Investments in real estate related securities, such as asset-backed or mortgage-backed securities are subject to prepayment and extension risks.

Private Market Investments Risks:

An investment in the Fund is suitable only for investors who can bear the risks associated with private market investments (such as private credit and private equity) with potential limited liquidity. Shares will not be listed on a public exchange, and no secondary market is expected to develop.
